The C.L.E.A.R. Prompt Framework

A practical job aid for safer, more useful workplace AI prompts

AI ADOPTION TRAINING | SPEC LEARNING PROJECT

C

Context

Situation, role, audience, and why the task matters.

L

Limits

Length, tone, privacy constraints, sources, and what not to do.

E

Expected Output

Define the format: bullets, email, table, script, summary, or checklist.

A

Assets & Evidence

Provide facts, examples, policies, or source material to rely on.

R

Review

Verify facts, remove sensitive data, revise weak output, and apply judgment.

Before / After Example

WEAK PROMPT

Write a response to this customer complaint.

CLEAR PROMPT

Context: You are a support specialist responding to a frustrated subscription customer.

Limits: Be empathetic, under 120 words, and do not promise a refund.

Expected output: Email with acknowledgment, next step, and calm closing.

Assets: Customer was charged twice; finance review is pending.

Review: Flag any claim that needs verification.

FINAL CHECK BEFORE YOU USE AI OUTPUT

- Is the information accurate?
- Did I remove sensitive data?
- Would I stand behind this if my name were on it?
